

## TAKE THE FOLLOWING TO A WASTE RECEPTION STATION OR OTHER WASTE COLLECTION POINT

Waste reception stations accept waste other than ordinary household waste.

The waste reception stations accept credit and debit cards.

Waste can be delivered as a maximum of 1 m<sup>3</sup> loads in a car, trailer or van. PILLERI Waste Reception Station in Lahti also accepts larger loads.

To have ordinary domestic waste collected (energy waste and mixed waste), properties must join the waste management system.

### ELECTRICAL EQUIPMENT

- household appliances, devices and tools of all sizes that operate on mains power or batteries
- energy-saving lights, fluorescent tubes, LED lamps

### GARDEN WASTE

- twigs and branches
  - garden waste
- Garden waste is accepted by waste reception stations free of charge as separate loads.

**i** Materials are recycled into raw materials for new products.

**i** Twigs and branches are used in energy generation. Garden waste is utilised in the production of biogas and soil.

### HAZARDOUS WASTE

- paints, glue, varnishes, solvents, acids
- oils, waste contaminated with oil, vehicle liquids and scrap batteries
- chemicals with a warning sign
- cosmetics classified as hazardous waste, such as nail varnish, perfumes and aftershave
- plant-protecting agents and pesticides
- batteries and small accumulators should be taken to a collection point with their poles covered with adhesive
- medicines and mercury thermometers should be returned to a pharmacy

Households may bring 50 kg/50 litres of waste per year free of charge.

**i** Handled in a processing plant for hazardous waste. Some of the waste may be used for energy generation and recycled as raw material.

### OTHER WASTE ACCEPTED BY WASTE RECEPTION STATIONS

- wood (including furniture)
- treated (impregnated) wood
- concrete and bricks
- insulation fibres, tiles
- sanitaryware
- asbestos (packaged and labelled)
- roofing bitumen
- gypsum
- asphalt
- window glass
- furniture, mattresses
- metals
- tyres
- tree stumps
- soil from earthworks
- pieces of paper that contain sensitive personal information
- large items of mixed or energy waste that cannot be disposed of in the property's waste containers

Separate different materials to reduce waste reception charges

**i** Primarily used as raw material for new products or utilised in energy generation.

## TAKE THE FOLLOWING TO A COLLECTION POINT FOR END-OF-LIFE TEXTILES

Collection of end-of-life household textiles starts at the beginning of 2023!

To be disposed of as end-of-life textiles:

- Clean and dry clothes and household textiles that are no longer usable, such as
- coats, trousers, skirts, shirts
  - sheets, towels and tablecloths

Place in a plastic bag and close the bag securely.

Not accepted at the collection point:

- underwear, socks
- pillows, covers, upholstery
- rugs
- belts, bags
- footwear
- damp or mouldy textiles or textiles with fabric pests or strong odours

Donate usable clothes and textiles to a charity.

**i** Unusable household textiles taken to an end-of-life textile collection point will be reused as recycled fibre, for example.
